The Inspiring Women Awards

In 2022, the Inspiring Women Awards, celebrated its 30th anniversary of recognising the outstanding achievements of women in the North West of England, North Wales and for one category, the rest of the world. Over those years 100s of women have been publicly recognised for their achievements and 1,000s more acknowledged for their dedication, vision and acts of bravery and determination.

To celebrate this anniversary, the 'Here come the Girls' category was designated as a global award and nominations from around the world poured in. The success of that award in attracting outstanding nominations from the UK and beyond has led us to establish a permanent global category, 'Women making Waves'.

"We have worked with Jacqueline for over 20 years in relation to the Inspiring Women Awards and I have found her to be extremely innovative, professional, creative and imaginative when it comes to high level events for large numbers of people. Each year she has continued to attract interesting and animated speakers and a very high profile sponsors network. I believe Jacqueline adds a tremendous amount of value to events through her innovative and creative outlook."

Heather Crosby, Partner, Deloitte

The Awards Lunch is firmly placed in the North West's corporate entertaining calendar with 300 senior business and professional leaders attending each year to celebrate the achievements of these remarkable women.

Previous sponsors have commented on the attraction of a more intimate, established event which allows their brands to shine brighter.

Sponsors are given exposure to senior business and professional leaders through the website, emarketing campaigns, the award Lunch itself and all post Awards publicity.

“The Inspiring Women Awards is now a permanent feature in the Hall Brown Family Law calendar. Hearing of the challenges, difficulties or painful situations in life which these women have been through, and yet they have found the inner strength to carry on (and achieve amazing things), is truly humbling. The awards ceremony itself is guaranteed to ensure tears of joy, laughter, but also a sprinkle of sadness; and to remind us all of how amazing many women are.”

Claire Reid, Partner, Hall Brown 2022

“I am so privileged and honoured to be recognised with such a prestigious award, with this recognition it means we can reach so many more tech returners and most importantly change more lives:)”

Beckie Taylor, Founder Tech Returners, Digital & Tech Innovator Award winner 2022

“I am truly honoured to have won this award and share the event with so many inspiring women. It really means a lot to me and the community I represent to receive this. Thank you to Jacqueline and all the team for providing us a platform to share our story and celebrate the amazing women in the North West.”

Grace Vella, CEO Miss Kicks, Inspiring Young Woman Award winner 2021

“It was a fabulous surprise, and a huge delight winning the business category for the Inspiring Women Awards. Its humbling to be recognised in this category and an honour to champion women in business. I believe strongly in gender equality and there are still not enough women in senior roles in business, as such it is important that we celebrate achievements but more importantly mentor young women, early in their careers.”

Sara Prowse, CEO Hotter Shoes, Business Award winner 2018

“Winning the award meant so much to me , it was a real privilege to be amongst so many truly inspiring women doing such wonderful work. It was an amazing experience filled with excitement and anticipation but full of laughter and happiness - yes lots of nice emotions. I know it was also a very special day for all my friends who had supported this nomination and contributed towards my winning this glamorous award. I feel really blessed to have so many special people around me who have made this award possible for me. Thanks to 'Inspiring Women' for being there for ordinary women.”

Atiha Chaudry, Chair: Manchester BME Network, Community Award winner 2016

“STEMMsisters are so chuffed to win the technology award. We were shocked, surprised and excited! Shocked to win because there were so many worthy finalists, surprised because we are a small fledgling e-company and excited because hopefully this win will mean that STEMMsisters can provide disengaged individuals with a STEMM role model to connect, inspire and empower them!”
